JOIN US TO SUPPORT UKRAINE

As the frontline of WWII receded in early August of 1944, a preservatives plant was established in Kedainiai. Its main purpose was to provide food for the Lithuanian people affected by the war, as well as those who were turning over a fresh page in their lives.

Unfortunately, history is now repeating itself. Today, we need to take care of the Ukrainian people: those who were forced out of their homes and those who are fighting for their country with all of their strength and even their lives.

In an effort to help the Ukrainian people, we have made Ukrainian borscht, which comes in 480 g containers. We will donate all of the profits from the sales of this product to the Blue Yellow NGO (*VšĮ Mėlyna ir Geltona*), which is providing the Ukrainian military and volunteers with non-lethal equipment, thereby aiding them in their fight against the Russian aggression.

Follow QR code link to our web page where we will publish transparent updates showing the amount we have transferred to Blue Yellow.

Join us in distribution of this product!

Let us work together, spread the word and at the same time help the people of Ukraine affected by war!

Слава Україні! Героям слава!
